

UpdatePlace API:

This API updates the new address whatever we give by using the `place_id` and `key` as query parameters.

End Point: <https://rahulshettyacademy.com/maps/api/place/update/json>

HttpMethod : PUT

Query Parameters:

`key` → qaclick123

`place_id` → which we got from AddPlaceAPI

Request Body:

```
{  
  "place_id": "73c00097fef5ead50118eb4cff65e211",  
  "address": "Bhelpur, 6th cross",  
  "key": "qaclick123"  
}
```

Response Body:

```
{  
  "msg": "Address successfully updated"  
}
```
